Education

Ph.D. in Political Science, L'École des Hautes Études en Sciences Sociales, France September 2024 – Present

Thesis: *Shifting divides: comparative analysis of dynamics of relationship between European integration dimension and others using inductively constructed dimensions from social media data*

Thesis supervisors: Drs. David Chavalarias & Pedro Ramaciotti, & Jan Rovny

M.S. in Sociology, SciencesPo Paris, France

September 2022 – June 2024

Thesis: *Online conversation to gain more support?: An analysis of the politicians' use of Twitter and interaction between French deputies and the public on the platform*

Thesis supervisor: Dr. Jean-Philippe Cointet

B.S. in Economics and Society, SciencesPo Paris, France

September 2017 – March 2021

B.S. in Economics, Keio university, Japan

April 2016 – March 2021

Thesis: *Single-Issue Politics and Political Polarisation —An Analysis of Elections Using Hotelling's Location Competition Model—*

Thesis supervisor: Dr. Takako Fujiwara-Greve

Research Interests

- Party politics
- Voting behavior
- Methodology: Computational and quantitative

Research Experience

Research Assistant, ERC J-InnovaTech, CNRS

September 2023 – Present

Supervisor: Dr. Aleksandra Kobiljski

- Digital humanities project on the technological change in Japan using historical sources.
- Responsible for data analysis and visualization of the network and geographic data retrieved from historical archives using Gephi and QGIS.

Research Assistant, FOCOS, Université Paris Cité

January 2024 – June 2024

Supervisor: Dr. Pedro Ramaciotti

- Project on the estimation of political actors’ ideal points on survey dimensions based on social network data and its validation with textual data.

Research Assistant, Medialab, SciencesPo
Supervisor: Dr. Pedro Ramaciotti

January 2023 – July 2023

- The European Polarization Observatory project funded by CIVICA.
- Responsible for annotation of parliamentarians’ social network accounts and standardization of data to match with Chapel Hill Expert Survey using Python.

Teaching Experience

Teaching assistant, Democracy in Europe: Backsliding and competition in multi-level systems, SciencesPo Paris, France
September 2026 – December 2026

Service

article peer-review

September 2024 – September 2026

- Article review for political science and computational social science papers on PLOS ONE, Nature Humanities and Social Sciences Communications, Social Science Computer Review.

Other Relevant Experience

Contents Manager, System Development, Jiritsu Gakusyu Sacacell

April 2020 – August 2024

- Responsible for web design of the owned media, content marketing, and SEO. Automated creation of invoices using Google App Script.

Media Intern, Repro Inc.

August 2016 – July 2017

- Managed and promoted owned media. Developed an automated report system for ranking the most viewed articles, which helped visualize the results and motivated the media team.

Peer-Reviewed Publications

Antoine Vendeville, Jimena Royo-Letelier, Duncan Cassells, Jean-Philippe Cointet, Maxime Crépel, Tim Faverjon, Théophile Lenoir, Béatrice Mazoyer, Benjamin Ooghe-Tabanou, Armin Pournaki, **Hiroki Yamashita**, Pedro Ramaciotti. 2026. “Mapping the political landscape from data traces: multidimensional opinions of users, politicians and media outlets on X”, *Data in Brief*. doi: <https://doi.org/10.1016/j.dib.2026.112615>.
